Are you the new talent in LTP?

LTP needs more talents. During the last five years we have more than doubled our turnover.

We plan to continue this growth and therefore we will need new talents in the management of the company.

Now we are introducing the LTP Talent Program.

Participants in the program will be offered support in developing into a strong manager.

Approximately 2-4 persons will be taken in the program which is lasting two years.

Every Talent will have a personal Mentor. This Mentor is a person from the top management which will support the Talent during these two years.

The Talents will be offered

education and take part in management seminars to pickup new information.

LTP wants to grow own talents to handle growth.

For the talent program we look for employees who:

- Think smart. See new possibilities. Open minded.
- Ambitious. Work hard.

- LTP Spirit. A good colleague, think company first.

Interested? Ausra in HR will be looking forward to your motivation letter latest 15.02.08.

Large LTP delegation to ISPO

On the last week of January six girls from LTP sales department went to ISPO— the biggest sports fair in Europe.

We have asked Zaneta, Business development manager LTP about this trip: "We sent a big delegation because this is a major chance for all our sales people to meet all our customers

and discuss our future plans, understand what is going on in the sports market and search for new potential customers. As a specialist in the market we need to be upfront

on the new things that the designers are coming up with, so we can pick up ideas and present them to our exiting costumers. We came back with a long nice list on all the customers that we would like to work with. And then it's just hard work to get the fishes in the net."
